Each year, the CCPD gathers data from graduating seniors through the College’s First Destination Survey. As of December 18, 2015, we had first destination data on 88% (307/348) of 2015 graduates.

By December 2015, 91% of those who sought employment had secured jobs (compared to 85% in 2013 and 91% in 2014), and 13% of the Class of 2015 was already enrolled in continuing education (compared to 19% in 2013 and 23% in 2014).

Overall, 87% of the Class of 2015 was employed, in graduate school, in the military, or engaged in a gap/service year within six months of graduation.

Fewer than 13% were not decided, waiting to hear back on graduate school applications, or still seeking employment as they headed into the calendar year following their graduation.

In alignment with national standards, our “employment” category includes any opportunity with a wage or stipend, so paid service opportunities such as Teach for America and the Peace Corps are considered employment (not volunteer service).
Class of 2015 First Destination Survey Results

A summary of data regarding 2015 First Destinations may be found here: http://bit.ly/CCPDAnnualReport1415
