Kalamazoo College requires a complete medical questionnaire and up to date immunizations before matriculation. For the safety of our campus, new students will NOT be allowed to move in, participate in athletics, LandSea or start classes until immunizations are reviewed by the Student Health Center staff and found to meet the College standards listed below.

This form is a guide to the required immunizations that you will need to matriculate at Kalamazoo College.

1. Request a copy of your complete and up-to-date immunizations from your healthcare provider.
2. Log into the Student Health Link at the website www.kzoo.edu/healthsv and select the New Students tab. (You will need your 7 digit student ID to register.)
3. Enter your immunizations. If you are up-to-date, your status will be “Compliant.”
4. Once you have updated the Immunization section, please send a copy of your Immunizations from your Healthcare provider to the College by mail, fax, or email attachment to be used to verify dates and vaccines.
5. Your immunization status will be changed from “Compliant” to "Verified" on the Student Health Link when ALL of your Entrance Medical Forms have been reviewed and found to meet college requirements.

**Required Vaccinations Before Arrival on Campus**

**HEPATITIS B**
Three doses of vaccine or a positive hepatitis B surface antibody meets this requirement.

**MENINGITIS QUAD (A, C, Y, W - 135)**
One dose on or after the age of 16.

**MMR (MEASLES, MUMPS, RUBELLA)**
Two doses of MMR required at least 28 days apart starting at 12 months of age or two doses of Measles, one dose of Mumps, and one dose of Rubella at least 28 days apart starting at 12 months of age or a positive quantitative antibody titer meets this requirement.

**POLIO**
Primary series completed.

**TETANUS, DIPHTHERIA, PERTUSSIS (Tdap)**
Tetanus, Diphtheria, Pertussis booster within the last 10 years.

**VARICELLA (Chicken Pox)**
Two doses of vaccine or a history of chicken pox or a positive quantitative antibody titer meets this requirement.

**TUBERCULOSIS (TB) SCREENING/TESTING**
Kalamazoo College will require TB testing only for those individuals who fall into high-risk groups. If all of the answers to the Tuberculosis Self Screening (in the Medical Questionnaire) are NO, this requirement is met. If you have any YES answers, please get a TB skin or blood test (QFT or T-Spot) done with your health care provider and send the document in English to the Student Health Center by August 1.

**Recommended Vaccinations**

**HEPATITIS A**
Two doses of vaccine.

**HUMAN PAPILLOMAVIRUS VACCINE (HPV)**
Three doses of vaccine for females and males ages 12-26.

**INFLUENZA**
Annually.
