Introduction to Moodle @ K

Quick Start Guide
Provided by Web Services

Get Started
1. Go to moodle.kzoo.edu.
2. Login with your Knet credentials.
3. Select Course request to request a new Moodle course.
4. Click our Moodle help page to view tutorials & resources.

Manage Your Course
moodle.kzoo.edu > Login > NAVIGATION > “My courses” > COURSE# > EDIT MODE ON

- Drag-n-drop PDF readings & other downloadable files directly to your course page.
- Hover over a section & click Add an activity or resource to create quizzes, assignments, links, and other items in Moodle.

About Moodle @ K
Kalamazoo College is currently running Moodle 2.5.1, Liberal Arts Edition (LAE) v5.0.1. Our Moodle is not connected to our Registrar, so it’s important to remember the following:

- Moodle course sites are not automatically created.
  You must request a Moodle course site for every course every quarter--even if you have taught the course using Moodle before.
- Students are not automatically enrolled in any Moodle course.
  Students may elect to self-enroll in your course once it is created. Any student may enroll in any course, even if they are not registered for that course. You can restrict access to your course by adding an enrollment key.
- Grades in Moodle are not official grades.
  Please submit your official grades to the Registrar.
